Sani-Tuff® Waterless Cleanser With Grit
Sani-Tuff® Waterless Cleanser**NOTICE**

This product does not require a Material Safety Data Sheet because it is a cosmetic product intended for the personal consumption of employees while in the workplace. As such, OSHA regulations specifically exempt it from all requirements of the Hazard Communication Standard.

However, we recognize that compliance with the Hazard Communication Standard and assuring the safety of the customer's employees is of the greatest concern to our customers, and that some customers seek to go beyond what is legally required. Therefore this data sheet is provided in the interest of assuring that our customers are kept fully informed about our products and are able to fully communicate the proper procedures for the use of these products to their employees. In this spirit, we have included information about all major components defined as hazardous by OSHA (29 CFR Sec. 1910.1200) in the section marked "Hazardous Ingredients".
